WERCC 2024

April 22-24, 2024 Chicago, Illionos

Vision & Mission

The main theme of the conference is “**Shaping the Future of Environment to live more sustainably**”. With its multidisciplinary focus, the Conference draws attendees from across the health care spectrum, from across the nation and around the world. This **Conference** inspire scientists and engineers to join us and share the platform with their experimental, theoretical, and innovative practical results in a range of fields, including environmental protection.

Scientific Sessions

- Env Technologies
- Env Contamination
- Env Protection
- Pollution Prevention
- Biodiversity
- Global Warming
- Water Management
- Geo Information
- Urban Ecology
- Environmental Justice
- Ozone Repair
- Wild Life Ecology

About

This Environmental Research Conference provides a unique opportunity for participants from a range of backgrounds including protection, technologies, monitoring, research and public health, to engage in discussion, debate and collaboration on prominent issues in Environmental Systems.

Hours 8:00AM - 5:30
PM

Day 1 Program April 22, 2024

Opening Ceremony
Conference Souvenir Launch
Honorable guests Session
Keynote Forum (& Exhibitions Full day)
(Panel discussion and Reviews)
Coffee Break: Networking and Refreshments
Group photo
Speaker Forum
Session Chair's Introduction
Panel discussion and Reviews
Lunch break
Speaker sessions (Cont...)
Young Research Forum
Coffee Break: Networking and Refreshments
B2B Meetings
Certificates Felicitation

Day 2 Program April 23, 2024

Speaker Forum Continuation
Oral Presentations
Poster Presentations
Panel discussion and Reviews
Young Research Forum
(Panel discussion and Reviews)

Day 3 Program April 24, 2024

Speaker sessions (Cont...)
B2B Meetings
Certificates Felcitation By the organizing committee
Closing Ceremony

MANY HIGHLIGHT SESSIONS

Chemical stressors
Ecological chemistry
Ecotoxicology
Endocrine disruption
Environmental biotechnology
Chemical stressors
Ecological chemistry
Ecotoxicology
Endocrine disruption
Environmental biotechnology
Pollution detection
Risks and public health
Solid-Waste management
Soil and site pollution
Waste treatment and disposal
Wastewater
Water pollution control and Water security
Wildlife and biota

KEY FEATURES

WELL ORGANIZED SCIENTIFIC PROGRAM

RENOWNED SPEAKERS

WORLD CLASS EXHIBITS

SYMPOSIUMS

INTERACTIVE SESSIONS

CONFERENCE DETAILS

Abstract submission opens: May 9, 2023
Registration opens: May 15, 2023
Deadline for Early Abstract Submission: June 28, 2023
Early bird registration: July 4, 2023

ABOUT CHICAGO

Chicago's 58 million tourist visitors in 2018 set a new record. Landmarks in the city include Millennium Park, Navy Pier, the Magnificent Mile, Art Institute of Chicago, Museum Campus, Willis (Sears) Tower, Grant Park, Museum of Science and Industry, and Lincoln Park Zoo. Chicago is also home to Presidential Center being built in Hyde Park on the city's South Side. Chicago's culture includes the visual arts, literature, film, theater, comedy (especially improvisational comedy) food.
